Funding:

Our services are very affordable since parents themselves provide most of the intervention. However, we recognize that some families may not be able to afford the full cost.

Current funding available:

- Sliding scale based on need
- Some of our services can be covered by Medicaid, Level I or I/O Waivers through our parent company Pro Health Care Services.
- Families joining our Home Consulting Program in 2008 receive a 20% discount.

We are currently working on securing funding through the Autism Scholarship, Help Me Grow and private grants. Call our Office for more information.
